Berwick Physiotherapy Clinic has been providing services to the region since 1980, with Pakenham Lakeside Physiotherapy opening in 2011 in order to meet the needs of the growing community. Both clinics are committed to providing high quality physiotherapy. Our physiotherapists use a 'hands on' approach and all practitioners are members of the Australian Physiotherapy Association. The clinics are open six days a week and have evening and early morning appointments. All physiotherapists have expertise in the management of spinal and sports-related injuries.
